<b>2</b>	<b>Usage</b>	<b>5</b>
<b>3</b>	<b>Demo</b>	<b>7</b>
<b>4</b>	<b>Bugs/features</b>	<b>9</b>

This Django app provides a templatetag to render pagination widgets which include a range of pages around the current active one.

# CHAPTER 1

---

## Installation

---

```
pip install django_rangepaginator
```

Update your Django settings:

```
INSTALLED_APPS += [  
    'django_rangepaginator'  
]
```

---

### Usage

---

```
{% load rangepaginator %}  
{% paginate page distance=2 edge=2 request=request %}
```

The following options are available:

- distance: number of pages around current active one (default = 2)
- edge: number of pages at the start and end (default = 1)
- extra\_class: add extra css classes to the pagination div (default = “”)
- text\_labels: use strings for previous/next instead of symbols (default = True)

## CHAPTER 3

---

### Demo

---

A sandbox environment is available in the repository, run the following:

```
./sandbox/manage.py migrate  
./sandbox/manage.py runserver
```

## CHAPTER 4

---

Bugs/features

---

Let me know! :-)
